For practices accredited with another provider

See what support from AGPAL looks like

The accreditation experience includes the information, education and practical resources available to your practice throughout the accreditation cycle.

With almost 30 years supporting Australian general practices and exclusive involvement as the accrediting agency in the RACGP 6th edition pilot program, AGPAL brings practical experience, dedicated client relationships and a growing program of education and resources to help practices prepare for the 6th edition.

Experience AGPAL client education and resources

Leave your details to receive a complimentary AGPAL education and resource sampler, including:

- AGPAL Practice Manager Quick Guide from our Transition & Readiness resource suite to support 6th edition preparation,
- An invitation to Episode 1 of our Building Better Practices education series on 4 November, featuring recognised practice leaders sharing practical insights, lessons learnt and real-world examples drawn from years of experience in general practice, and
- Information about the broader education, resources and assistance available to AGPAL clients.

Scan the QR code to receive your sampler and learn more about accreditation with AGPAL. Or speak with our Client Success and Growth team about your accreditation needs on 1300 362 111 or email adminbd@agpal.com.au.

Accreditation with confidence.

Trusted expertise and practical support for Australian general practices since 1997.

Why choose AGPAL?

Dedicated, knowledgeable support

The AGPAL Client Relationship Team helps you understand standards, evidence requirements and accreditation processes, at no additional cost.

Resources you can put into practice

Access customisable policies, templates and checklists to strengthen your practice systems and prepare for assessment.

Ongoing accreditation support

Stay informed with relevant standards updates, practical advice and quality improvement resources.

Surveyors with real-world experience

Your on-site accreditation assessment is conducted by qualified professional peers who understand general practice and recognise opportunities for quality improvement.

Education for your entire team

Build your team's understanding of accreditation requirements through complimentary, standards-specific training. Additional tailored training is available.
